

PMP® Academy

Description

Benefits of participating in PMP® Academy

- Gain insights into the full project management process, both theoretically and through real-life project examples
- Acquire practical knowledge of tools and techniques used at every stage of project management
- Understand the processes and dependencies affecting the course of a project, develop skills in planning, task delegation, and progress monitoring
- Improve soft skills necessary for fostering positive relationships with the project team and stakeholders
- Participate in group exercises that allow you to apply learned methods in practice and exchange the experience with the instructor and the group
- Prepare for certification and develop the ability to solve tasks on the PMP® exam to obtain the PMP® certificate

Trainings included in the PMP® Academy

Module I – Managing Projects in Organizations

Module II – Scope, Schedule and Cost Management
